Aristocrat
AWNINGS
SHADES • CANOPIES
RAILINGS • DECKS

Precision made by Craft-Bilt Manufacturing Company, a leading American manufacturer of home improvement products since 1946, Aristocrat® Awnings, Shades, and Canopies are manufactured utilizing the latest advancements in technology, electronics, and engineering. The result is beautifully crafted and long lasting products truly worthy of their Aristocrat name.

Our customers tell us that they choose Aristocrat because of the quality and durability of our offerings and the longevity of our company. Meticulous care is taken in each step of the manufacturing process to ensure that everything leaving the factory meets your and our high standards. There's a reason why we offer the strongest warranty in the industry, including 12 years on our Craft-Bilt Northport fabrics and a lifetime transferable warranty on frames.

RETRACTABLE AWNINGS

Decks and patios are the perfect place to spend quality time with your family, entertain your friends, or just relax on warm, sunny days. Under the cool shade of an Aristocrat Awning, you can continue to enjoy the outdoors, even on the hottest days of summer. Relax outside where an awning will protect you from the damaging rays of the sun.

Our awnings also add beauty and value to your home. With multiple models, features, options, custom sizes, and over 100 exclusive designer fabrics, you can select the perfect awning to complement your home while fitting your individual needs, style, and budget.

Did you know that awnings:

- Block harmful UV rays that cause skin cancer by as much as 94%
- Reduce indoor temperature by as much as 15 degrees
- Reduce solar heat gain from windows during direct sunlight by as much as 70%
- Cut cooling costs by as much as 52%
- Protect your furnishings and artwork from fading
- Protect wood decks from fading and cracking

“We had an Aristocrat Awning at our last house and wanted another one for our new home. We always say to not mess with success. With how much we loved the first one, buying the second was an easy decision. Thank you for a quality product.”

William and Barb Sagan, PA

WINDOW / DOOR / PORCH AWNINGS • DROP SHADES

Enhance your home's appearance with our window, door, and porch awnings or the sleek elegance of drop shades

Window and porch awnings protect your home's valuable furnishings from fading. They also substantially lower air conditioning costs by blocking the summer sun from heating your window glass and bringing that heat inside your home. Door awnings provide shade and shelter, keeping your entryway dry and clear of debris. Choose from a variety of models, sizes, and over 100 exclusive fabrics to add a distinctive look to your home.

COTTAGE® AWNINGS

Drop-arm retractable awnings allow you to control the amount of the sun's light and heat entering your home. They can be adjusted to any position, blocking sun glare whether it's in the morning, afternoon, or early evening.

DROP SHADES

An economical addition to your favorite outdoor areas, drop shades add protection from the sun and create additional privacy on your porch, deck, or patio. They can roll up and retract into a sleek cassette when not in use.

STATIONARY AND BASKET AWNINGS

Above your doors, windows, or porches, these stylish awnings provide year-round protection from sun and rain. They will also complement your home's exterior and withstand the elements.

"We love the look of our window awnings. They are so easy to open and close. All we have to do is push a button."

Carol DeSimone, CT

EXTERIOR SOLAR SHADES

Control the sun's heat before it hits your windows

Glass windows and doors allow you to enjoy your natural surroundings, but they also let in heat from the sun and increase your cooling costs. Solar shades improve the efficiency of your windows and doors by filtering out the sun's heat before it reaches the glass. They also add privacy while preserving your beautiful view of the outdoors.

Our exterior solar shades are custom manufactured to cover your windows and doors with a variety of cassette and guide options, sizes, colors, and exclusive designer fabrics to keep the sun out!

"My solar shades are absolutely perfect for my west-facing deck. They keep the afternoon heat and sun to a minimum. I chose a color that even matches the siding and trim of my house. I love them."

Randall Krentz, WI

HORIZONTAL SHADES

Add privacy and sun protection from the side

Most shade products protect you from overhead sun, but the morning and evening sun can be just as harsh. Horizontal shades are pulled sideways, so you and your family can enjoy morning coffee, lunch, or dinner without squinting from the glare of the sun. With semi-transparent screen fabric or non-transparent, solution-dyed acrylic, add privacy to your outdoor areas or obscure less than perfect views. Simply pull the shade from its side cassette and hook it onto either a wall or floor-mounted post.

Horizontal shades have numerous applications. They can be mounted to your existing structure, an Aristocrat Canopy, Tension Shade System, or wall-mounted to add side shade under your Patio Awning.

The easy-pull system and roller wheel enables the shade to easily glide across the ground. A safety brake will stop the shade from rolling up if it is accidentally released, preventing damage to the fabric.

MOTORIZED SCREENS • ZIPPER SOLAR SHADES

Transformable spaces . . . go from an open porch, patio, or garage to a screen room in seconds

Our Solar Shade Series II "Zipper System" creates a completely closed retractable screen room, keeping out unwanted pests while dining or simply enjoying the outdoors. With the touch of a button, transform your porch, patio, or garage into a screen room. When not in use, the screens retract inside a protective cassette, opening up your space to the outdoors. With motorized screens, you can have the best of both worlds at the touch of a button. Enjoy an open porch or garage when you want one and a screen room when you need one.

CANOPIES • PERGOLA CANOPIES • UNDER-PERGOLA SYSTEMS

Create your own tranquil oasis - cool, covered, and comfortable

Aristocrat's innovative canopy system offers vacation-like comfort in the convenience of your own backyard. Our freestanding canopy can be placed almost anywhere in your yard, offering a secluded spot to enjoy the outdoors. When mounted to your home, they provide added sun protection where you sit and relax most often. The under-pergola canopy system can be installed beneath existing pergolas or structures to provide additional shade. Canopies are a flexible shading solution for any outdoor living space - on your deck or patio, in the yard, or by the pool.

The added shade will provide comfort and protect you and your loved ones by blocking up to 94% of UV rays that can lead to skin cancer.

- The addition of decorative rafters transforms a canopy into a pergola canopy
- Choose from over 100 exclusive designer fabrics
- Side curtains or solar shades can be added on any or all sides for additional privacy and sun protection

TENSION SHADE SYSTEMS

Transform your outdoor living space into a shady retreat

Reclaim the outdoors from the sweltering sun with our newest innovation in shade solutions, the TS and TS2. They add a contemporary look and feel to the traditional awning and with some of the largest fabric spans, are engineered to cover spacious decks, patios, pergolas, or glass roofs. It's an efficient way to enjoy summer days without the heat and harmful rays of the sun.

"It looks great and really cools our deck when extended."

Charles Jorgenson, IL

With the push of a button, fabric glides smoothly along the rigid framework and when shade is no longer needed, the fabric retracts into its cassette, where it is protected from the elements.

Custom manufactured with over 100 exclusive designer fabric options, it's easy to find a style that suits your home.

With two Aristocrat Tension Shade Systems (TS and TS2) to choose from, pick the model that best fits the needs of you and your family.

TS

- Must be mounted above or below an existing structure
- Perfect for adding shade to pergolas, glass roofs, or alcoves

TS2

- Can be mounted above an existing structure or to a wall or roof with a leg support frame
- Horizontal shades or solar shades (series II) can be mounted to the TS2 leg system

ALUMINUM AND GLASS RAILINGS (FRAMED • FRAMELESS)

Increase the beauty and elegance of your home's exterior

Add the perfect complement to your home with Aristocrat Aluminum and Glass Railings. When quality and durability matter, these fully engineered structural railings are a stylish addition for your primary or vacation home. Beautifully crafted and maintenance-free, our railings are custom built on-site to provide a seamless blend with the architecture of your home. Options include aluminum pickets, framed glass, or frameless glass to enjoy views with less obstructions. Our railings offer an unparalleled level of safety and security.

WATERPROOF ALUMINUM DECKS

Put on the LAST DECK you'll ever own!

Aristocrat's revolutionary, maintenance-free aluminum deck is unlike any other product on the market. Made of extruded aluminum, the deck boards will outlast any other deck material available, including wood, plastic, vinyl, or composite!

The boards join together under a pressure-locked seal. In the unlikely event that any moisture gets past the pressure lock, there is a built-in continuous gutter in each board to carry it away so under the deck stays dry and clean. Aluminum is also **cool to the touch** and less likely than other materials to hold heat from direct sunlight.

Never paint, stain, waterproof, or fix warped, rotting boards and popping nails again. It's the deck that lasts and lasts for decades!

SCREEN ROOMS • PATIO COVERS • CARPORTS

Rediscover all that is wonderful about outdoor living

Breezy screen rooms make it easy to enjoy the serenity of the outdoors without worrying about unpredictable weather or the nuisance of insects. Add comfortable living space to relax and enjoy being outside in the fresh air. Patio Covers shield you from harsh sun and rain and help protect your furniture from fading and weather damage. A less expensive alternative to a garage addition, carports offer protection from sun, rain, and snow as you load and unload your vehicle in inclement weather.

At Aristocrat, we pride ourselves on being a little different from other shade product companies, and those differences are important. Our products feature options and choices that allow you to customize your shade product.

ESTATE FRAME OPTIONS

Our most popular awning, the Estate, can come as a base model; with a tray; with a hood and tray; or with a back, hood, and tray.

Base model

With tray

With back, hood, and tray

FLUSH MOUNTED

Estate and Manor Awnings are flush mounted to your facade providing a lower-profile appearance and preventing rain and debris from getting behind the awning and damaging or soiling the fabric.

WATERPROOF ALUMINUM DECKS

NO • Painting • Staining • Waterproofing • Splintering • Cracking • Rotting
• Warping • Decaying • Knot Holes • Bonding and Glue Issues

Extruded aluminum OUTLASTS wood, vinyl, or composite board decks or any vinyl membrane.

Aluminum decks look great for decades.

NON-COMBUSTIBLE - Aluminum will NOT ignite, burn, or degrade from UV rays

COOL TO THE TOUCH - Aluminum won't hold heat like other materials

During a test performed at 86° in direct sunlight, decking surface temperature registered:

Colors	<input type="checkbox"/> Ivory <input type="checkbox"/> Fashion Gray <input type="checkbox"/> Antique Bronze
Finish	NON-SKID - Heavy-duty powder-coat finish with embedded texture for non-skid performance.
Materials	Maintenance-free, high strength extruded aluminum. Coated with durable baked-on finish - eliminates painting and staining.
Fasteners	Hidden fasteners eliminate worry about nails or screws popping.
Deck Boards	<ul style="list-style-type: none"> • Join together under a pressure lock to form a gapless floor with waterproof* joints • Built-in continuous gutter system in each board for water management  <p><small>*Decking should not be used as the sole roofing solution over enclosed living space, consult installation guide</small></p>

ALUMINUM AND GLASS RAILINGS

Sizes	Post sizes: 2 ¼", 3", 5 ½" square Picket widths: 5/8" or 1 ½"
Colors	<input type="checkbox"/> White <input type="checkbox"/> Desert Sand <input type="checkbox"/> Earthstone <input type="checkbox"/> Black
Picket and Glass Panels	Fully engineered structural railings in your choice of color-matched aluminum pickets or tempered glass panels.
Top Rails	Unique crossover designed handrails run over the posts for a straighter, stronger railing with fewer joints than other systems. Single or double top rails available.
Glass Panels	Tempered glass panels. Clear, tinted, or frosted. ½" thick glass. Heavy wall glass channel with deep pocket contains the glass.
Lights	Built-in LED lighting available for added safety and security. 
A.D.A.	Railings can be built A.D.A. compliant.

Our awning has it!

- Aristocrat Others
- A. Arm shoulder pitch adjuster** - stainless bolts, extruded and drop-forged components
- B. Fabric tray** - keeps fabric tight as it moves, minimizes roller tube sag, and protects fabric
- C. Heavy-duty springs** - maintain the right tension to keep fabric beautifully taut
- D. Heavy-duty elbows** - dual cables wrapped in vinyl for extra durability
- E. Front profile bracket** - Teflon® coated for a smooth, quiet glide
- F. Integrated gutter system** - front profile channels water out the front of the awning
- Square bar support** - 40mm galvanized steel (Manor/Estate/Eko)
- Heavy-duty mounting brackets** - on all models (Manor/Estate/Eko/Villa)
- Heavy-duty shoulder assemblies** - in place of square bar (Villa)
- Stainless steel fasteners** - durable and covered with color-matched caps for a sleek look
- Baked-on enamel and powder coated** - no maintenance finish
- Limited lifetime transferable warranty** - on awning frame
- Craft-Bilt fabric collection - world's finest selection of exclusive solution-dyed acrylic fabrics
- Fabric sewn exclusively with translucent Gore™ Tenara® thread lasts the lifetime of the fabric
- Craft-Bilt Fabric Guarantee - against rot, mildew, and variations in dimensional stability and color
- 12-year warranty** on Craft-Bilt Northport fabrics

INDUSTRY LEADING WARRANTIES

Shade Products - Covered by a limited lifetime transferable warranty against manufacturer's defects on frame components, 12-year warranty on Craft-Bilt Northport fabrics, 12-year warranty on moving parts, and 5-year warranty on motors, gears, and electronic controls.

Aluminum and Glass Structural Railings - Covered by a 10-year manufacturer's warranty on aluminum components, including frames, posts, rails, and pickets.
